9. Loss Absorption upon a Trigger Point Condition

(A) *Loss Absorption Features*

The instrument has principal loss absorption features in case the Trigger Point Condition is satisfied through either (i) conversion to common shares or (ii) a write-down mechanism which allocates losses to the instrument at a pre-specified trigger point.

The write-down will have the following effects:

- i. Reduce the claim of the instrument in liquidation;
- ii. Reduce the amount re-paid when a call is exercised; and
- iii. Partially or fully reduce dividend payments on the instrument.

(B) *Option for Write-down*

- i. If prior to any Coupon Payment Date, the Trigger Point Condition is satisfied, then Issuer may, by giving notice to the Trustee but without the need for the consent of Bondholders or the Trustee, write down the outstanding principal of the Bonds and to reserves by such amount as the Issuer may in its absolute discretion decide subject to the amount of write down not exceeding the amount which would be required to reverse the Trigger Point Condition to level required by Bangladesh Bank from time to time (currently 4.5%) and also cancel any Coupon Payment which is accrued but unpaid on the Trigger Point Date for the written down part of the Bond. During the period in which Trigger Point Condition remains

satisfied, Coupon Payment shall only be to the extent of amount of Bond which has not been written down as per this clause. Unless the Issuer is liquidated earlier, as and when, as per published audited financials of the Issuer, the Trigger Point Condition is reversed without considering the written-down part of the Bond transferred to reserves, i.e, minimum CET-1 improves to level required by Bangladesh Bank without considering the written-down part of the Bond transferred to reserves, the Bond will be written up automatically and Coupon Payment shall resume on the written up part of the Bonds from next Coupon Payment Date pro-rated to the period between the reporting date (quarter-end date when minimum CET-1 reaches 4.5% or above) and next Coupon Payment Date. The Issuer shall send a notification to the Trustee and restating the financial statements with written-up Bond amount.

Within 2 (two) Business Days of the approval of the audited financials which confirms fulfilment of the Trigger Point Condition, the Issuer shall notify the Trustee of the need for exercising Loss Absorption Option by notifying the Conversion Strike Price, number of Bonds to be converted, expected end date of the Conversion Period ("Conversion Notice"); and the Trustee shall within 2 (two) Business Days of the receipt of the Conversion Notice, notify the Bondholders about the receipt of the Conversion Notice.

After the Trigger Point Condition Date, the Loss Absorption Option shall be exercised upon conversion of the outstanding principal of the Bonds to common shares at the Conversion Strike Price by such amount which shall not exceed the amount which would be required to bring the consolidated Common Equity Tier 1 (CET 1) ratio to 4.5% of risk weighted asset.

CET-1 on Trigger Point Condition Date will be considered to identify the shortfall percentage and it will be converted into common shares eventually. If an issue in relation to issuance of a fractional share arises upon conversion, the Issuer will round the number of shares issuable, up to the next whole number. Fractional lot size will also be rounded to the next whole number.

The Issuer shall send a notification to the Trustee and restating the financial statements with written-up Bond amount.
- ii. The Issuer shall have the discretion to write-down the Bonds multiple times in case the Trigger Point Condition is satisfied subsequent to the previous writing-down, which was partial.
