1. MANAGEMENT'S PERCEPTION & ANALYSIS ON RISK FACTORS

The following matters should be considered carefully before making any investment decision with respect to the issuer or the bonds. This section contains a list of risks usually associated with the issuer and the bonds that it is issuing. The sequence in which the risks below are listed is not intended to be indicative of any order of priority or of the extent of their consequences. This list of risk factors is not meant to be a comprehensive description of all risks which may be relevant to a decision to invest in the bonds. It does not take into consideration of an investor's specific knowledge and/or understanding about the risks typically associated with the issuer and the purchase and ownership of the bonds. You are advised to review the risks below, if necessary, with the assistance of your own professional advisors, prior to making any investment decisions. If any of the risks described materialize, they could have a serious effect on the issuer's financial results, and the ability of the issuer to fulfill its obligations under the bonds to be issued.

1.1 Interest Rate Risk

Interest rate risk is the risk to earnings or capital of the bank arising from movement of interest rates.

Management Perception

To manage interest rate risk, ALCO regularly monitors various ratios and parameters. Bank deploys several analysis techniques (e.g. Rate Sensitive Gap Analysis, Duration Gap Analysis) to measure interest rate risk, its impact on Net Interest Income and takes insight about course of actions.

1.2 Exchange Rate Risk

Foreign exchange risk is the risk that a Bank's financial performance or position will be affected by fluctuations in the exchange rates between currencies and implied volatility on foreign exchange options.

Management Perception

Bank makes import payment and outward remittance as its outflow, whereas it gets foreign currency inflow as export receipts and inward remittance. Exchange rate risk arises, if, on a particular day, these inflow-outflows don't match and bank runs its position long/short from these customer driven activities. Bank also faces foreign exchange risk if it sources its funding in one currency by converting fund from another currency. Currently, the Bank is facing such transaction exposure in foreign currency for its off-shore banking unit. But these transactions exposure is always hedged. The bank computes VaR (Value at Risk) on its foreign exchange position arising from customer driven foreign exchange transactions at 95% confidence level on daily basis. The bank maintains various Nostro accounts in order to conduct operations in different currencies. The management of the bank set limits for conducting Nostro account transactions. All Nostro accounts are reconciled on monthly basis and outstanding entries are reviewed by the management for its settlement/ adjustment. The position maintained by the bank at the end of the day is within the stipulated limit prescribed by the Bangladesh Bank. Since the Bond is to be issued in local currency and there is no conversion to other currency therefore, we do not foresee any exchange rate risk in relation to bond.

1.3 Non-Repayment Risk (Credit Risk)

Credit risk is the risk of loss that may occur from the failure of any counter party to make required payments in accordance with agreed terms and conditions and/or deterioration of creditworthiness.

Management Perception

Dhaka Bank PLC has established a system of independent, on-going credit review and the results of such reviews are communicated directly to the Board of Directors and senior management. Credit risk is managed through a framework set by policies and procedures established by the Board. The responsibility is clearly segregated between origination of business transaction and approval of the transaction. Final authority and responsibility for all activities that expose the bank to credit risk rests with the Board of Directors in conjunction with the senior management of the bank. There is a comprehensive credit appraisal procedure that covers industry/business risk, management risk, financial risk, facility structure risk, security risk, environmental risk, reputational risk, and account performance risk.

1.4 Prepayment, Call or Refunding Risk

The risk associated with the early unscheduled return of principal on a fixed-income security.

Management Perception

This particular bond issue does not have prepayment, call or refunding option thus, does not impose risk to the Issuer.

1.5 Security Risk

The risk associated with the default, authenticity or validation of the collateral used to guarantee repayment of a debt.

Management Perception

Since this is an unsecured debt, this particular risk is not applicable here.

1.6 Liquidity Risk

Liquidity Risk is the potential for loss to a bank arising from either its inability to meet its obligations as they fall due or to fund increases in assets without incurring unacceptable cost or losses. The Bank is deemed to have adequate liquidity when it can obtain sufficient funds promptly and at a reasonable rate.

Management Perception

Responsibility of managing and controlling liquidity of the bank lies with Asset Liability Committee (ALCO) that meets at least once in every month. Asset Liability Management (ALM) desk of the treasury function being primarily responsible for management of liquidity risk closely monitors and controls liquidity requirements on a daily basis by appropriate coordination of funding activities. A monthly projection of fund flows is reviewed in ALCO meeting regularly.

On monthly basis, ALCO monitors liquidity management by examining key ratios, maximum cumulative outflow, upcoming funding requirement from all business units, asset-liability mismatch etc. ALCO also monitors concentration of deposits on large institutional depositors which is volatile in nature. Description of key audit matters	Our response to key audit matters
1. Measurement of provision for loans and advances	
Refer to note no. 2.1, 2.15.3, 7, 7(a), 7.10, 7.11 and 15.1 to the consolidated and separate financial statements	
<p>The process of estimating provision for loans and advances associated with credit risk is judgmental and complex. While estimating such provision certain judgmental factors need to be considered including:</p> <ul style="list-style-type: none"> • Future business performance of the borrower; • Key assumptions relating to further business of the borrower; • Performance of the borrower; • Market value of collateral; • Ability to repossess collateral; and • Recovery rates. <p>Furthermore, these provisions are processed manually using the voluminous data extracted from the IT system of the Bank and following the instructions of Bangladesh Bank (the central bank of Bangladesh) issued from time to time.</p> <p>As of 31 December 2023 the Group and the Bank reported total provision for loans and advances of BDT 17,345 million and BDT 17,065 million respectively (2022: BDT 16,169 million and BDT 15,905 million respectively).</p>	<p>We tested the design and operating effectiveness of key controls focusing on the following:</p> <ul style="list-style-type: none"> • Credit monitoring and provisioning process. • Identification of loss events including early warning indicator and default warning indicators; and • Review of quarterly Classification of Loans (CL). <p>Our substantive procedures in relation to the provision for loans and advances portfolio comprised the following:</p> <ul style="list-style-type: none"> • Reviewed the adequacy of the provision requirements. • Assessed the methodologies on which the provision amounts are based, recalculated the provisions, and tested the completeness and accuracy of the underlying information; and • Finally, assessed the appropriateness and presentation of disclosures against relevant accounting standards and Bangladesh Bank guidelines
2. Recognition of interest income from loans and advances	
Refer to note no. 22 and 22(a) to the consolidated and separate financial statements	
<p>Recognition of interest income has a significant and wide influence on financial statements.</p> <p>Recognition and measurement of interest income is involved in a complex IT environment.</p> <p>We have identified recognition of interest income from loans and advances as a key audit matter because this is one of the key performance indicators of the Bank and therefore there is an inherent risk of fraud and error in recognition of interest by management to meet specific targets or expectations.</p> <p>At the year end of the Group and the Bank reported gross interest income from loans and advances of BDT 21,445 million and BDT 21,512 million respectively (2022: BDT 16,156 million and BDT 16,210 million respectively).</p>	<p>We tested the design and operating effectiveness of key controls over recognition and measurement of interest income from loans and advances.</p> <p>We have performed test of operating effectiveness on automated control in place to measure and recognize interest income.</p> <p>We have also performed substantive procedure to check whether interest income is recognized completely and accurately.</p> <p>We have assessed the appropriateness and presentation of disclosures against relevant accounting standards and Bangladesh Bank guidelines.</p>

3. Loans and advances	
Refer to note no. 2.1, 2.15.3, 7 & 7(a) to the consolidated and separate financial statements	
<p>Loans and advances are the main element of financial statements of the Bank. The interest income of the Bank is mainly dependent on the portfolio of loans and advances. Management performance is highly dependent on the target achievement of loans and advances. Loans and advances disbursement requires robust documentation followed by approval from an appropriate level of authority.</p> <p>We have identified loans and advances as key audit matters because there is an inherent risk of fraud and misstatement in disbursement of loans and advances by management to meet specific targets or expectations.</p> <p>At the year end of the Group and the Bank reported gross loans and advances of BDT 255,269 million and BDT 256,187 million respectively (2022: BDT 238,842 million and BDT 239,686 million respectively).</p>	<p>We tested the design and operating effectiveness of key controls focusing on credit appraisal, loans and advances disbursement procedures and monitoring process of loans and advances.</p> <p>We have performed procedure to check whether the Bank has ensured appropriate documentation as per Bangladesh Bank regulations and the Bank's policy before disbursement of loans and advances. In addition, we have performed procedure to check whether the loans and advances are recorded completely and accurately and that are existed at the reporting date.</p> <p>Furthermore, we have assessed the appropriateness of disclosures against Bangladesh Bank guidelines.</p>
4. Impairment assessment of unquoted shares	
Refer to note no. 6.2.1 to the consolidated and separate financial statements	
<p>In the absence of quoted price in an active market, the fair value of unquoted shares and securities, especially any impairment is calculated using valuation techniques which may take into consideration direct or indirect unobservable market data and hence requires an elevated level of judgement and assumption.</p> <p>Due to high level of judgment and assumption involved in evaluating the impairment assessment of unquoted shares, we considered this to be a key audit matter.</p>	<p>We assessed the process and controls put in place by the Bank to ensure all major investment decisions are undertaken through a proper due diligence process.</p> <p>We have tested a sample of investment valuation as at 31 December 2023 and compared our results to the recorded value.</p> <p>Finally, we have assessed the appropriateness and presentation of disclosures against relevant accounting standards and Bangladesh Bank guidelines.</p>
5. Valuation of treasury bills and treasury bonds	
Refer to note no. 6.1 to the consolidated and separate financial statements	
<p>The classification and measurement of treasury bills (T-Bills) and treasury bonds (T-Bonds) require judgment and complex estimates.</p> <p>In the absence of a quoted price in an active market, the fair value of T-Bills and T-Bonds is determined using complex valuation techniques which may take into consideration direct or indirect unobservable market data and complex pricing models which require an elevated level of judgment.</p>	<p>We assessed the processes and controls put in place by the Bank to identify and confirm the existence of treasury bills and treasury bonds.</p> <p>We have obtained an understanding, evaluated the design and tested the operating effectiveness of the key controls over the treasury bills and treasury bonds valuation processes, including controls over market data inputs into valuation models, model governance, and valuation adjustments.</p>

Description of key audit matters	Our response to key audit matters
<p>At the year end of the Group and the Bank reported T-Bills and T-Bonds of BDT 40,288 million and BDT 40,215 million respectively (2022: BDT 41,567 million and BDT 41,567 million respectively).</p>	<p>We have tested a sample of the valuation models and the inputs used in those models, using a variety of techniques, including comparing inputs to available market data.</p> <p>Finally, we have assessed the appropriateness and presentation of disclosures against relevant accounting standards and Bangladesh Bank guidelines.</p>
<p>6. Legal and regulatory matters</p>	
<p>We focused on this area because the Bank and its subsidiaries (the "Group") operate in a legal and regulatory environment that is exposed to significant litigation and similar risks arising from disputes and regulatory proceedings. Such matters are subject to many uncertainties and the outcome may be difficult to predict.</p> <p>These uncertainties inherently affect the amount and timing of potential outflows with respect to the provisions which have been established and other contingent liabilities.</p> <p>Overall, the legal provision represents the Group's best estimation for existing legal matters that have a probable and estimable impact on the Group's financial position.</p>	<p>We obtained an understanding, evaluated the design and tested the operational effectiveness of the Group and Bank's key controls over the legal provision and contingency processes.</p> <p>We asked those charged with governance to obtain their views on the status of all significant litigation and regulatory matters.</p> <p>We enquired of the Group and the Bank's internal legal counsel for all significant litigation and regulatory matters and inspected internal notes and reports. We also received formal confirmations from external counsel.</p> <p>We assessed the methodologies on which the provision amounts are based, recalculated the provisions, and tested the completeness and accuracy of the underlying information.</p> <p>We also assessed the Group and the Bank's provisions and contingent liabilities disclosure.</p>
<p>7. IT systems and controls</p>	
<p>Our audit procedures have focused on IT systems and controls due to the pervasive nature and complexity of the IT environment, the large volume of transactions processed in numerous locations daily and the reliance on automated and IT dependent manual controls.</p> <p>Our areas of audit focus included master data management, user access management and developer access to the production environment and changes to the IT environment. Among others, these are key to ensuring operating effectiveness of IT dependent application-based controls.</p>	<p>We tested the design and operating effectiveness of the Group and the Bank's IT access controls over the information systems that are critical to financial reporting. We tested IT general controls (logical access, changes management and aspects of IT operational controls). This included testing that requests for access to systems were appropriately reviewed and authorized.</p> <p>We tested the Group and the Bank's periodic review of access rights. We also inspected requests of changes to systems for appropriate approval and authorization. We considered the control environment relating to various interfaces, configuration and other application layer controls identified as key to our audit.</p> <p>Where deficiencies were identified, we tested compensating controls or performed alternate procedures. In addition, we understood, where</p>

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and those Charged with Governance for the Consolidated and Separate Financial Statements and Internal Controls

Management is responsible for the preparation and fair presentation of the consolidated financial statements of the Group and also separate financial statements of the Bank which give true and fair view in accordance with IFRSs as explained in note 2.1, and for such internal control as management determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error. The Bank Companies Act, 1991 (as amended up to date) and the Bangladesh Bank regulations require the Management to ensure effective internal audit, internal control and risk management functions of the Group and the Bank. The management is also required to make a self-assessment on the effectiveness of anti-fraud internal controls and report to Bangladesh Bank on instances of fraud and forgeries.

In preparing the consolidated and separate financial statements, management is responsible for assessing the Group's and the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and

other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

IFRS: As per IAS 1, a complete set of financial statements comprises a statement of financial position, a statement of profit and loss and other comprehensive income, a statement of changes in equity, a statement of cash flows, notes comprising a summary of significant accounting policies and other explanatory information and comparative information. IAS 1 has also stated the entity to disclose assets and liabilities under current and non-current classification separately in its statement of financial position.

Bangladesh Bank: The presentation of these financial statements in prescribed format (i.e. balance sheet, profit and loss account, cash flow statement, statement of changes in equity, liquidity statement) and certain disclosures therein are guided by the First Schedule (section-38) of the Bank Company Act, 1991 (amended upto date), and amendment thereon and BRPD circular no. 14 dated 25 June 2003 and subsequent guidelines of Bangladesh Bank. In the prescribed format there is no option to present assets and liabilities under current and non-current classification.

ii) Investment in shares, mutual fund and other securities

IFRS: As per requirements of IFRS 9, classification and measurement of investment in shares and securities will depend on how these are managed (the entity's business model) and their contractual cash flow characteristics. Based on these factors it would generally fall either under "at fair value through profit or loss account" or under "at fair value through other comprehensive income" where any change in the fair value (as measured in accordance with IFRS 13) at the year-end is taken to profit & loss account or other comprehensive income respectively.

Bangladesh Bank: As per BRPD circular no. 14 dated 25 June 2003 investments in quoted and unquoted shares are revalued on the basis of year-end market price and Net Assets Value (NAV) of last audited balance sheet respectively. As such, provision is made for any loss arising from diminution in value of investments (portfolio basis); otherwise investments are recognised at costs.

iii) Revaluation gain/loss on government securities

IFRS: Government securities refer primarily various debt instruments which include both bonds and bills. As per requirements of IFRS 9 Financial Instruments, bonds can be categorised as "Amortised Cost (AC)" or "Fair Value Through Profit or Loss (FVTPL)" or "Fair Value through Other Comprehensive Income (FVOCI)". Bonds designated as Amortised Cost are measured at amortised cost method and interest income is recognised through profit and loss account. Any changes in fair value of bonds designated as FVTPL is recognised in profit and loss account. Any changes in fair value of bonds designated as FVOCI is recognised in other reserve as a part of equity.

As per requirements of IFRS 9, bills can be categorised either as "Fair Value Through Profit or Loss (FVTPL)" or "Fair Value through Other Comprehensive Income (FVOCI)". Any change in fair value of bills is recognised in profit & loss or other reserve as a part of equity respectively.

Bangladesh Bank: According to DOS circular no. 5 dated 26 May 2008 and further clarification in DOS circular no. 5 dated 28 January 2009, Government securities/bills are classified into Held for Trading (HFT) and Held to Maturity (HTM). HFT securities are revalued on the basis of mark to market and any gains on revaluation of securities which have not matured as at the balance sheet date are recognised in other reserves as a part of equity and any losses on revaluation of securities which have not matured as at the balance sheet date are charged in the profit & loss account. Interest on HFT securities including amortisation of discount is recognised in the profit & loss account. HTM securities which have not matured as at the balance sheet date are amortised and gains or losses on amortisation are recognised in other reserve as a part of equity.

iv) **Repo and reverse repo transactions**

IFRS: As per IFRS 9 when an entity sells a financial asset and simultaneously enters into an agreement to repurchase the asset (or a similar asset) at a fixed price on a future date (repo), the arrangement is treated as a loan and the underlying asset continues to be recognised at amortised cost in the entity's financial statements. The difference between selling price and repurchase price will be treated as interest expense. The same rule applies to the opposite side of the transaction (reverse repo).

Bangladesh Bank: As per Department of Off-Site Supervision (DOS) Circular letter no. 06 dated 15 July 2010 and subsequent clarification in DOS circular no. 02 dated 23 January 2013, when a bank sells a financial asset and simultaneously enters into an agreement to repurchase the asset (or a similar asset) at a fixed price on a future date (repo or stock lending), the arrangement is accounted for as a normal sales transaction and the financial asset is derecognised in the seller's book and recognised in the buyer's book.

v) **Provision on loans and advances**

IFRS: As per IFRS 9 an entity shall recognise an impairment allowance on loans and advances based on expected credit losses. At each reporting date, an entity shall measure the impairment allowance for loans and advances at an amount equal to the lifetime expected credit losses if the credit risk on these loans and advances has increased significantly since initial recognition whether assessed on an individual or collective basis considering all reasonable information, including that which is forward-looking. For those loans and advances for which the credit risk has not increased significantly since initial recognition, at each reporting date, an entity shall measure the impairment allowance at an amount equal to 12 months expected credit losses that may result from default events on such loans and advances that are possible within 12 months after reporting date.

Bangladesh Bank: Interest is calculated on a daily basis in product level, but charged or capitalized on quarterly basis. Interests due against classified loans (up to Doubtful) are usually keeping in interest suspense account as per Bangladesh Bank guidelines, and such interest is not accounted for income realization, until the same is recovered from borrowers. Interest is not charged on Bad/ Loss loans, as per guidelines of Bangladesh Bank.

vi) **Recognition of Interest in suspense**

IFRS: Loans and advances to customers are generally classified at amortised cost as per IFRS 9 and interest income is recognised by using the effective interest rate method to the gross carrying amount over the term of the loan. Once a loan subsequently becomes credit-impaired, the entity shall apply the effective interest rate to the amortised cost of these loans and advances.

Bangladesh Bank: As per BRPD circular no. 14 dated 23 September 2012, once a loan is classified as impaired, interest on such loans are not allowed to be recognised as income rather the corresponding amount needs to be credited to an interest in suspense account which is presented as a liability in the balance sheet.

2.2 Basis of measurement

The financial statements of the Group have been prepared on historical cost basis except for the following:

- Government Treasury Bills and Bonds designated as 'Held for Trading (HFT)' are presented at value using mark to market concept with gain crediting to revaluation reserve; and
- Government Treasury Bills and Bonds designated as 'Held to Maturity (HTM)' are carried at amortised cost.

2.3 Going concern

The accompanying financial statements have been prepared on a going concern assumption that the Bank will continue in operation over the foreseeable future. The Bank has neither any intention nor any legal or regulatory compulsion to liquidate or curtail materially the scale of any of its operations. Key financial parameters (including liquidity, profitability, asset quality, provision sufficiency and capital adequacy) of the Bank continued to demonstrate a healthy trend for a couple of years. The Bank has been awarded AA in long term and ST-2 in short term by Emerging Credit Rating Limited. Rating details are shown in note 2.32. Besides, the management is not aware of any other material uncertainties that may cast significant doubt upon the Bank's ability to continue as a going concern.

2.4 Functional and presentation currency

These financial statements are presented in Bangladeshi Taka (Taka/Tk) which is the Bank's functional currency. Except as otherwise indicated, financial information presented in Taka has been rounded-off to the nearest integer.

2.5 Use of judgments and estimates

In preparing these consolidated financial statements in conformity with International Accounting Standards (IASs) and International Financial Reporting Standards (IFRSs), management has required to make judgments, estimates and assumptions that affect the application of bank's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The most critical estimates and judgments are applied to the following:

- Provision for loans and advances/investments- as explained in note 2.15.3;
- Employee benefit- as explained in note 2.23;
- Income tax- as explained in note 2.24;
- Deferred tax assets/liabilities- as explained in note 15.8; and
- Depreciation rates of depreciable assets regard to non-current assets- as stated in Annexure-D.

However, underlying assumptions on estimates are reviewed on a going concern basis and revisions thereon are recognised in the period in which the estimates are revised. It is also required to disclose the contingent assets and liabilities at the date of the financial statements in accordance with the guidelines as prescribed by IAS 37: "Provisions, Contingent Liabilities and Contingent Assets".

Provision

Provisions are liabilities that are uncertain in timing or amount. Provisions are recognised in the following situations:

- the entity has a present (legal or constructive) obligation as a result of past events;
- probable out flow of resources to settle the obligation and the obligation can be measured reliably;
- it is more likely than not that outflow of resources will be required to settle the present obligation exists at the end of reporting period.

Contingent Liability

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events. A contingent liability arises when some, but not all, of the criteria for recognizing a provision are met.

IAS 37 applies prudence by deeming a past event to give rise to a present obligation and an entity shall not recognise a contingent liability. However, if it is possible rather than probable that an obligation exists, a contingent liability will exist, not a provision in the financial statements. An entity shall disclose for each class of transaction of contingent liability at the end of the reporting period if the contingent liability is not remote.

Contingent Assets

A contingent asset is possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Entity. Contingent assets are never recognised rather they are disclosed in the financial statements when they arise.

2.6 Reporting period

The financial year of the Company covers one calendar year from 01 January 2023 to 31 December 2023.

2.7 Dividend

Dividend on ordinary shares is recognised as a liability and deducted from retained earnings when they are approved by shareholders at the Annual General Meeting (AGM) of the Bank.

2.13 Material accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements of the group and those of the Bank have been applied consistently except otherwise instructed by Bangladesh Bank as the prime regulator. Certain comparative amounts in the financial statements have been reclassified and rearranged to conform to the current period's presentation.

Accounting policies of subsidiaries

The financial statements of subsidiaries (Dhaka Bank Securities Limited and Dhaka Bank Investment Limited) which are included in the Consolidated Financial Statements of the Group have been prepared using uniform accounting policies of the Bank (Parent) for transactions and other events in similar nature. There is no significant restriction on the ability of subsidiaries to transfer funds to the parent in the form of cash dividends or to repay loans and advances. All subsidiaries of the Bank have been incorporated in Bangladesh.

2.13.1 Accounting policy for IFRS 16: Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case, the right-of-use asset will be depreciated over the useful life of the underlying asset which is determined on the same basis as those of property and

equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The Group determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, if the Group changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

2.13.2 Basis of consolidation

The consolidated financial statements include the financial statements of Dhaka Bank PLC, and those of its two subsidiaries (Dhaka Bank Securities Limited and Dhaka Bank Investment Limited) prepared as at and for the period ended 31 December 2023. Dhaka Bank Investment Limited	99.99%	2-Dec-13	Bangladesh	Majority Owned	Bangladesh Securities and Exchange Commission (BSEC)	31 December

2.13.3 Non-controlling interest

The Group elects to measure any non-controlling interests in the subsidiaries either:

- at fair value; or
- at their proportionate share of the acquired identifiable net assets, which are generally at fair value.

2.13.4 Transactions eliminated on consolidation

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the spot exchange rate at that date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated into the functional currency at the spot exchange rate at the date that the fair value was determined. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

2.24 Tax expense

Tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in the profit & loss statement except to the extent that it relates to items recognised directly in equity.

2.24.1 Current tax

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Details are shown in note 15.7.

2.24.2 Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future;

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities against current tax assets, and they relate to income taxes levied by the same tax authority on the same taxable entity or on different tax entities but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

2.24.3 Tax exposures

In determining the amount of current and deferred tax, the Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. This assessment relies on estimates and assumptions and may involve a series of judgments about future events. New information may become available that causes the Bank to change its judgment regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

2.25 Impairment of non-financial assets

The carrying amounts of the Group's and the Bank's non-financial assets other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset or its Cash Generating Unit (CGU) exceeds its estimated recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU.

Impairment losses (if any) recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

2.26 Earnings per share

The Group and the Bank present basic and diluted Earnings Per Share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Bank by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to the ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, which comprise share options granted to employees. No diluted earnings per share is required to be calculated for the period.

In order to comply with certain specific rules and regulations of Bangladesh Bank which are different to IASs/IFRSs, some of the requirements specified in these IASs/IFRSs are not applied. Refer to note 2.1 for such recognition and measurement differences that are most relevant and material to the Bank and the Group.

The Standard regards a retirement benefit plan as a reporting entity separate from the employers of the participants in the plan. Therefore, it is not applicable for the Bank's financial statements as it is the employer and not the retirement benefit plan itself.

The objective of IAS 34 is to prescribe the minimum content of an interim financial report and to prescribe the principles for recognition and measurement in complete or condensed financial statements for an interim period and hence it is not applicable for annual financial statements. However, the Bank being a listed entity in Dhaka and Chittagong Stock Exchanges regularly publishes Interim Financial Report complying with IAS 34.

16.9.1 As per Risk Based Capital Adequacy Guideline for Banks under BASEL-III 2014, the Tier 2 Capital under heading "General Provision" was limited to the actual amount of General Provision or 1.25% of Credit Risk Weighted Assets, which is lower. In subsequent BRPD Circular Letter no. 05 dated 31 May 2016, full amount of General Provision is allowed to be treated as part of Tier-II Capital.

16.9.2 As per risk based capital adequacy guidelines for banks under BASEL-III, the revaluation reserve for assets and securities will diminish at 20% per year on the base amount of 31 December 2014 so that the whole revaluation reserve amount will not get capital treatment after the end of five years (starting from January 2015).

16.9.3 As per the risk based capital adequacy guidelines in line with Basel-III issued in December 2014 by Bangladesh Bank, the amount of subordinated debt in the regulatory capital will have to be reduced (amortized) in the last 05 (five) years of the bond's life by 20% from the amount of the instrument. Dhaka Bank PLC. 2nd Subordinated Bond amounting Tk. 3,000,000,000 was issued on May, 2016 which is treated as Supplementary Capital (Tier- II). The tenure of the bond is 7 years. Hence, the reduction of the bond amount from regulatory capital has started from May 2019. Also Dhaka Bank PLC. 3rd Subordinated Bond amounting Tk. 5,000,000,000 was issued on August, 2018 which is treated as Supplementary Capital (Tier- II). The tenure of the bond is 7 years. Hence, the reduction of the bond amount from regulatory capital has started from August 2021.

Capital to Risk weighted Assets Ratio (CRAR) has been calculated as per risk based capital adequacy guidelines in line with BASEL-III issued in December 2014. DOS Circular no. 02 dated 04 April 2015 & BRPD Circular no. 05 dated 31 May 2016 on reporting CRAR & leverage ratio by Bangladesh Bank.

49. Events after reporting period

The Board of Directors in its 467th meeting has approved this financial statements for onward submission to the respective regulatory authorities on 28 April 2024 and recommend 10% cash dividend (subject to approval of shareholders).

50. General

50.1 Core risk management

BRPD circular no.17 (7 October 2003) and BRPD circular no. 4 (5 March 2007) require banks to put in place an effective risk management system. Bangladesh Bank monitors the progress of implementation of these guidelines through its on-site inspection teams through routine inspection. The risk management systems in place at the Bank are discussed below.

50.1.1 Credit risk

It arises mainly from lending, trade finance, leasing and treasury businesses. This can be described as potential loss arising from the failure of a counter party to perform as per contractual agreement with the Bank. The failure may result from unwillingness of the counter party or decline in his/her financial condition. Therefore, the Bank's credit risk management activities have been designed to address all these issues.

The Bank has segregated duties of the officers/executives, involved in credit related activities. Separate Corporate/SME/Retail divisions have been formed at Head Office which are entrusted with the duties of maintaining effective relationship with customers, marketing of credit products, exploring new business opportunities etc. Moreover, credit approval, administration, monitoring and recovery functions have been segregated. For this purpose, three separate units have been formed within the Credit Risk Management (CRM) Division. These are (a) Credit Risk Management Unit (b) Central Processing Center and (c) Special Assets Management Division to Credit Monitoring and Recovery. Credit Risk Management Unit is entrusted with the duties of maintaining asset quality, assessing risk in lending, sanctioning credit, formulating policy/strategy for lending operation etc. For retail lending, a separate Retail Unit is there, for SME their is a separate SME unit and for Agriculture, there is also a separate Agriculture Division to assess risk, approve and monitor those loans.

A thorough risk assessment is done before sanction of any credit facility at Credit Risk Management Units. The risk assessment includes borrower risk analysis, financial analysis, industry analysis, historical performance of the customer, security of the credit facility etc. The assessment process starts at the relationship level and ends at Credit Risk Management Unit when it is approved/declined by the competent authority. Credit approval authority has been delegated to the individual executives. Proposals beyond their delegation are approved/declined by the Executive Committee and/or the Board of Directors of the Bank.

In determining Single borrower/Large loan limit, the instructions of Bangladesh Bank are strictly followed. Internal audit is conducted at regular intervals to ensure compliance of Bank's and Regulatory policies. Loans are classified as per Bangladesh Bank's guidelines.

50.1.2 Asset liability management risk

For better management of asset and liability risk, the Bank has an established Assets Liability Committee (ALCO) which meets at least once in a month. The members of ALCO as at 31 December 2023 were as follows:

Managing Director & Chief Executive Officer

Additional Managing Director

DMD - Risk Management

DMD - Operations

DMD - CEMO

DMD - Corporate Banking

DMD & Manager, Local Office

DMD - CRO

Head of Islamic Banking Division

Head of Corporate CRM

Head of Liability & Cash Management

Head of Retail Banking

Chief Financial Officer

Head of Treasury Division

The ALCO's primary function is to formulate policies and guidelines for the strategic management of the Bank using pertinent information that has been provided through the ALCO process together with knowledge of the individual businesses managed by members of the committee. ALCO regularly reviews the Bank's overall asset and liability position, forward looking asset and liability pipeline, overall economic position, the Bank's liquidity position, capital adequacy, balance sheet risk, interest risk and makes necessary changes in its mix as and when required.

The Bank maintains specified liquidity and funding ratio limits to ensure financial flexibility to cope with unexpected future cash demands. ALCO monitors the liquidity and funding ratios on an ongoing basis and ascertains liquidity requirements under various stress situations. In order to ensure liquidity against all commitments, the Bank reviews the behaviour patterns of liquidity requirements. The Bank has an approved Liquidity Contingency Plan (LCP) which is reviewed and updated on an annual basis by ALCO. All regulatory requirements including CRR, SLR and RWA are reviewed by ALCO.

50.1.3 Foreign exchange risk

Foreign exchange risk is defined as the potential change in earnings due to change in market prices. The foreign exchange risk of the Bank is minimal as all the transactions are carried out on behalf of the customers against underlying L/C commitments and other remittance requirements.

Treasury Department independently conducts the transactions and the back office of treasury is responsible for verification of the deals and passing of their entries in the books of account. All foreign exchange transactions are revalued at Mark-to-Market rate as determined by Bangladesh Bank at the month-end. The Bank maintains various nostro accounts in order to conduct operations in different currencies including TK. The senior management of the Bank sets limits for handling nostro account transactions. All Nostro accounts are reconciled on a monthly basis and outstanding entries beyond 30 days are reviewed by the management for its settlement.

As per BRPD circular no. 04 dated 12 April 2022, if there is any entry unreconciled as at 30 September for 6 months or more, provision is maintained accordingly.

50.1.4 Internal control and compliance division

Effective internal controls are the foundation of safe and sound banking. A properly designed and consistently enforced system of operational and financial internal control helps a bank's management safeguard the Bank's resources, produce reliable financial reports and comply with laws and regulations. Effective internal control also reduces the possibility of significant errors and irregularities and assists in their timely detection when they do occur.

Internal Control and Compliance Division (ICCD) operates independently as a division consisting three units (Audit & Inspection, Monitoring and Compliance) with prime responsibility to determine risks by evaluating overall Business, Operations & Credit Portfolios of the Bank. The key objective of ICC is to assist and guide in all aspects of the Bank using adequate resources for identification of weaknesses and taking appropriate measures to overcome the same to be a compliant bank.

ICC has a unique reporting line to the Bank's Board of Directors through the Audit Committee and to the Managing Director & CEO. Thus, it acts as a bridge between the board and the Bank's management. An effective organisational structure has been established by exercising durable Internal Control culture within the Bank.

50.1.5 Reputation risk arising from money laundering incidences

Money laundering risk is defined as the loss of reputation and expenses incurred as penalty for being negligent in prevention of money laundering. For mitigating the risks, the Bank has a designated Head of Internal Control & Compliance at Head Office and Compliance Officers at branches who independently review the transactions of the accounts to verify suspicious transactions. Manuals for prevention of money laundering have been established and Transaction Profile has been introduced. Training is continuously given to all the category of Officers and Executives for developing awareness and skill for identifying suspicious activities/transactions.

50.1.6 Information technology

Relevant hardware, software and networking equipment is in place to support operations of online branches, internet banking, SMS service, call centre, Tele Banking, POS and ATM network. These devices are providing superior performance resulting in better end-user satisfaction. To ensure uninterrupted and smooth customer service in all branches and SME centres, IT division continuously work on performance tuning for database and application, networking and server hardware on regular basis. Continuous investments are going on to do the necessary upgradation on hardware and software to increase the Bank's centralised online banking and other peripheral service requirements.

50.2 Audit committee

According to BRPD circular no. 12 dated 23 December 2002, all banks are advised to constitute an audit committee comprising members of the Board. The audit committee will assist the Board in fulfilling its oversight responsibilities including implementation of the objectives, strategies and overall business plans set by the Board for effective functioning of the Bank. The committee will review the financial reporting process, the system of internal control and management of financial risks, the audit process, and the Bank's process for monitoring compliance with laws and regulations and its own code of business conduct.

The Bank's approach to calculating its own internal capital requirement has been to take the minimum capital required for credit risk, market risk and operational risk under Pillar-I as the starting point, assess whether this is sufficient to cover those risks and then identify other risks (Pillar-II) and assess prudent level of capital to meet them.

The assessment is undertaken using time series of data and Bangladesh Bank's guidelines on Risk Based Capital Adequacy to assess the likelihood of occurrence and potential impact. Purposes of Internal Capital Adequacy Assessment Process are to:

- i) inform the Board of Directors about
 - assessing risks
 - initiatives to mitigate identified risks
 - capital requirement to support the operations in light of identified risks
- ii) comply with Bangladesh Bank's requirement.

The spread of coronavirus globally has led the World Health Organization (WHO) to classify it as a pandemic on 11 March 2020 and like most of the other countries, Bangladesh Government has also taken restrictive measures to contain its further spread affecting free movement of people and goods. The events that occurred due to the pandemic are currently fast evolving with the extent of the impact on the economy resulting in adjusting the financial statements (as necessary). Though the full measurement of the impact of the events after the reporting date is difficult to estimate at this stage, management is of the view that the Bank will not be adversely affected by this pandemic as the Bank is not experiencing or likely to experience any significant change in its business activity. Considering the nature of the Bank's business, management is of the view that there is no significant event that cast doubt on its ability to continue as a going concern. Currently, the Bank also has adequate resources to continue in operation for the foreseeable future.

Though as at the date of these financial statements, no material impact has been identified by management on the Bank's financial position, results of operations and cash flows, management has decided to continuously monitor, evaluate and measure the impacts on the operations of the Bank by remaining alert to the changing situations.

Independent Auditor's Report To the Shareholders of Dhaka Bank Securities Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Dhaka Bank Securities Limited ("the Company"), which comprise the statement of financial position as at 31 December 2023, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Dhaka Bank Securities Limited as at 31 December 2023, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) and as explained in note 2.1.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Bangladesh, and we have fulfilled our other ethical responsibilities in accordance with the requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to the following facts as disclosed in:

- Note # 2.15.2, and note # 5 to the financial statements, which describes the matter related to recognition of deferred tax asset and note # 21.1 and note 21.2 which describe the basis for maintaining provision on unrealized losses in respect of own portfolio investment and margin loan to clients.
- Note # 13 to the financial statements, which describes that as per BSEC/CMRRCD/2017-357/221/Admin/89 dated 22 May 2019, the company has to maintain provision @10% of profit after tax of last year as capital reserve which is applicable from 2019 whereas the company has not maintained the required capital reserve.

Our opinion is not modified in respect of these matters.

Other Information

Management is responsible for the other information. The other information comprises all the information other than the financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements and Internal Controls

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, the Companies Act 1994, the Securities and Exchange Rules 2020 and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on other Legal and Regulatory Requirements

We also report that the financial statements comply with the Companies Act 1994, the Securities and Exchange Rules 2020 and the other applicable laws and regulations. We, as required by law, further report that:

- a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of these books; and
- c) the statements of financial position and statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of account and returns.

**Independent Auditor's Report
To the Shareholders of Dhaka Bank Investment Limited**

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Dhaka Bank Investment Limited (the "Company") which comprise the statement of financial position as at 31 December 2023, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Dhaka Bank Investment Limited as at 31 December 2023, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Bangladesh, and we have fulfilled our other ethical responsibilities in accordance with the requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises all the information other than the financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements and Internal Controls

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, the Companies Act 1994 and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
